

Dear Valued Customer,

Due to the spiraling fuel prices, Harvest Select must implement a fuel surcharge on all shipments. This fuel surcharge will remain independent from our base rates and will be shown as a separate entry on our confirmations and invoices.

Our fuel surcharge percent will be based on the U.S. National On-Highway Average Weekly Diesel Fuel Price. You may view the charts provided by the Department of Energy by visiting their website at http://tonto.eia.doe.gov/oog/info/wohdp/diesel_detail_report.asp or our website will direct you. We will review this data and calculate our costs on a weekly basis.

Harvest Select Catfish will be requiring a 2000lb. minimum on all catfish orders, unless approved by our customer service department. In certain cases, a special handling fee may apply.

With a minimum 2000 lb. catfish order, there will be no drop charges or minimum for seafood items purchased. Consult our website for our seafood line freight rates and drop charges.

These actions are very necessary and we appreciate your cooperation.

For information, visit our web site link on freight guidelines.
